

# BRIGHTENING FUTURE

All Types Of Industrial Automation,  
Residential and commercial LT Panels,  
Engineering Solutions, Electrical Work &  
Electrical Equipment's Provider.

## • ABOUT US:

TRINITY ENGINEERS is an esteemed manufacturer and supplier of Power and Auto Control Panels that comprises of Electrical AMF Panels, Electrical Distribution Panels, Electrical APFC Panels, Electrical MCC Panels, and Industrial Socket Panels. We are also Trading Electrical goods(CT, Meter, LBS & Motorized RMU). Trinity Engineers offers turnkey solutions for Residential, Commercial & industrial auto, electrical panel Supply at any geographic location in India. We are also providing the service Of Electrical control panels. Trinity Engineers has specialization in Low Voltage Control Panels like Main LT Panels, APFC Capacitor bank Panels, Power Control Panels, Synchronizing Panel, Control & Relay Panels, L.T. Enclosures & Mass Production of Typical Panels and control solutions. Trinity Engineers are supported by a team of highly qualified and experienced technicians who helps in executing a perfect product range that best fit to customers' expectations. Our qualified engineers are backbone of the company who enables us to accomplish the project perfectly and within the stipulated time frame matching to clients' specifications.

### OUR VISION:-

To become a leading service provider in Electrical Power Control and Industrial Auto by offering innovative, technologically modern and cost effective solutions to our precious clients.

### OUR MISSION:-

- To manufacture high-quality electrical control panels and assemblies that meet the needs of our customers, while we continually
- Strive to earn our customers' trust with integrity and performance
- Provide a work environment where our employees achieve their potential & thrive in an atmosphere of excellence.

### OUR STRENGTH:-

- We have two design & electrical engineers, Four qualified working staff & Five office staff as our strength.

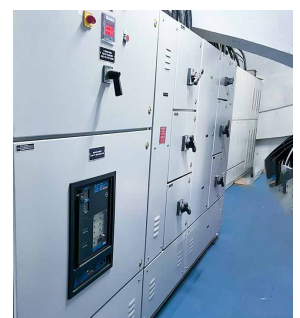

### QUALITY:-

- Our management strictly adheres to quality practices. The organization boasts of a quality component and dedicated team to maintain our quality standards through day to day reviews and all guided by the will and zeal to the best.

## • OUR PRODUCTS CONTROL PANELS

Our range of electrical panel has widespread usage in numerous residential purposes, commercial purposes & industrial Purposes. These electrical panel, electrical control panel, industrial electrical panel is manufactured in accordance to the industry recommended standards and confirms all the safety parameters. Hence, we cater our premium range of electrical panel to our clients. We also fabricate and supply an extensive assortment of control panel and electrical control panel which has revolutionized the industry. Since these are electrical panel, we ensure that it does not cause any leakage of current flowing through it as this would pose threat to the safety of our clients. Thus, keeping all its safety parameters intact, we manufacture our assortment of electrical panel. Following are some of the features of our electrical panel:

- Versatile application areas
- Easy maintenance •

# • PRODUCT RANGE

## LT Power Distribution Panel

We offer Power Distribution Panels in various dimensions of sizes and width and also provide customization according to the specifications provided by the customers. The distribution panel enables main incoming of electric board and generator with bus coupler permitting all the outgoing feeders. This process can be executed either on Electric Board Supply or Generator Supply.

Moreover an interlock system is provided to prevent clash between Electric Board Supply & Generator Supply. This range of products is widely used in various industrial and building applications.

## Metering Panel

We offer Metering Panels for residential and commercial buildings for multiple MSEDCL meters from single feeders to various users. We manufacture metering panel as per MSEDCL rules and regulations for metering and safety. We offer metering panel as per customer requirement like no of flat in residential & commercial buildings. Metering panel have provision to mount MSDCL meters with rated MCB/MCCB and power wiring and viewing door window to take meter readings.

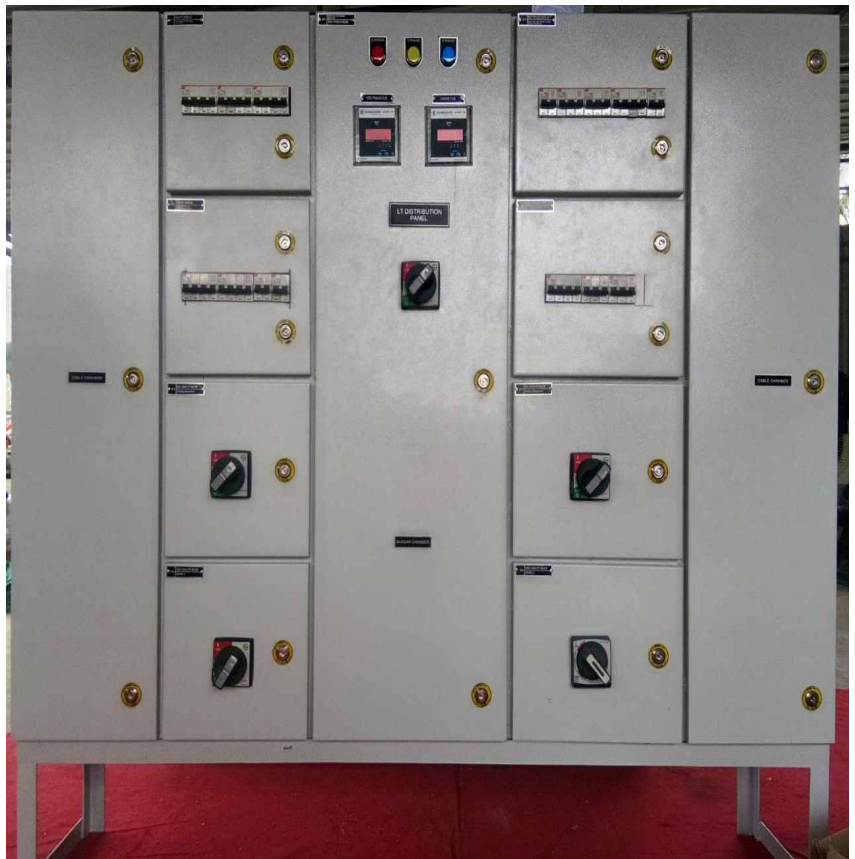

## Auto Changeover with Distribution Panel

We manufacture and supply a comprehensive spectrum of matchless Automatic Mains Failure & Auto Changeover Panels. Our Electrical AMF & Auto C/O Panels are durable and meet customer's exact requirements. Our experts customize the product range in accordance with client's specific requirements. These Customized AMF & Auto C/O Panels can be availed in various sizes that best fit to customer's requirement. Features:

1. Generator starting, stopping and monitoring sequence.
2. Automatic shutdown during any DG/MSEB fault.
3. Configurable via front panel feather touch push buttons.
4. Configurable Solid state Outputs.
5. Large number of configurable timers
